or phone 1300 253 223

Registrations close
9 Oct

KBDi invites you to join us at the Attica Showroom.

Discover the allure of **Lapitec®**, a full-body, eco-friendly surface that is both easy to clean and hygienic. At this event, you'll learn why and how to specify the product in your next kitchen or bathroom design.

Then be inspired by our guest speaker with a very informative professional development session:

SUSTAINABLE DESIGN

We've learned over the years that behind the best design projects are often stellar stories.

Anne Courtney-Bennett has one such story to tell when she was

charged with designing a sustainable farm house for a modern farming family. In this session, she'll take you on a tour and share a unique perspective on sustainable design.

What else can you expect at a KBDi event?

- drinks and canapés
- lucky door prizes
- invaluable networking with your peers
- introductions to the industry's best product reps
